

Commercial and Workers Compensation Insurance Information

We will bill your health insurance and Workers Compensation plans. You will be responsible for any balance not paid by your insurance.

If your insurance requires a referral or authorization number, it is your responsibility to obtain this information from your primary care physician. This referral or authorization number is required for your initial orthopaedic evaluation and treatment (i.e. Surgery, therapy, diagnostic study, DME).

If you have questions concerning your particular insurance coverage amount, please contact your insurance company or benefits coordinator. Workers Compensation.

We at Vermont Orthopaedic Clinic are committed to providing excellent service to our Workers Compensation patients, employers and the insurance carrier. We treat musculoskeletal cases including fractures, sprains and strains of all degrees and severities. We believe that an early diagnosis and appropriate treatment plan are the keys to returning the injured worker back to their job. Our philosophy embodies the return of the patient to a functional work status quickly, safely and cost effectively.

Please do not hesitate to contact us if you have questions regarding the services we offer.
